1. A new sanatorium and rest home located in the village of Otopeni (17 km from Bucharest) on the Bucharest-Ploesti Highway was completed in February, 1952. It was constructed in three sections: the sanatorium, a large home for convalescents, and 10 cottages for convalescents. It is situated on a 28 hectare section of land and the grounds are maintained in an elaborate fashion by political prisoners. The project is for the exclusive use of prominent Rumanian and Soviet Party Officials.
2. Though quite elaborately and tastefully furnished, the buildings are reportedly poorly constructed. The sanatorium does possess the latest medical equipment, however, and though small, can provide good medical facilities for the select group of patients.
3. Similar establishments are being constructed at Snagov and Gradiste.
